To Whom It May Concern

*Panablasting has been a valued supplier of Freightplus for the past 12 years.*

*Mr. Angel Javier Fernandez, the owner of PANABLASTING, has trained extensively in our facilities throughout Australia and Japan in cleaning used earthmoving equipment to the standard required by the Australian governments Quarantine Service (AQIS).*

*Mr. Fernandez is one of the most experienced contractors we trust our business to and he has performed cleaning and inspection services for us not only in Panama but also throughout the US and Latin America. We have such confidence in Mr. Fernandez's standard of work that we offer a USD 50,000.00 guarantee to our customers that his work will be above the standard required.*

*Due to the nature of the machines we ship, break downs can occur and Mr. Fernandez assists our cargo by procuring the necessary assets for the cargo to be loaded on time.*

*Panablasting not only provides a quality service but they also pride themselves on providing a safe and rewarding work environment for their staff. On my first visit to Manzanillo International Terminal in Colon, I was surprised to find all PANABLASTING staff wearing high visibility uniforms, hard hats and eye protection, an unusual site in South America where the workers safety is often second to profit.*

*I would recommend Mr. Fernandez's services without hesitation and we feel PANABLASTING is an asset to Panama and its ports.*

Cordially

Steve Townsend
