

DATE: NOVEMBER 2, 1998
SUBJECT: PANABLASTING TRACK CLEANING CREW
TO: WHOM IT MAY CONCERN

Panablasting is doing an exceptional job. When they started, they were given a safety talk and orientation on Track, Conductor slot, Gate crossing, Alertness while cleaning between lockages, hazards of locks and Slop Overs.

The Area is very clean and the wall presents less safety hazards now that the oil is being eliminated on a weekly basis.

They are presently working on removing the old coats of oil, grease, grime and dirt accumulated throught the years.

The Contractor is operating with three crews of two persons each in order to cover the entire area within a week. This organization minimize the potencial of accidents and at present they are complying with all Locks Safety Regulations and have an outstanding safety record.
